

Volume contents

Volume 97 (1999)

M. Dahim, J. Gustafsson, F. Puisieux, M. Ollivon (France, Sweden) <i>Solubilization of phospholipid/triacylglycerol aggregates by non-ionic surfactants</i>	1
M. Silvander, M. Johansson, K. Edwards (Sweden) <i>Effects of PEG-lipids on permeability of phosphatidylcholine/cholesterol liposomes in buffer and in human serum</i>	15
G. Dobson, Y. Itabashi, W.W. Christie, G.W. Robertson (UK) <i>Liquid chromatography with particle-beam electron-impact mass spectrometry of diacylglycerol nicotinates</i>	27
W.W. Christie, J.T.G. Hamilton, D.B. Harper (UK) <i>Mass spectrometry of fluorinated fatty acids in the seed oil of <i>Dichapetalum toxicarium</i></i>	41
N.M. Gulaya, A.I. Kuzmenko, V.M. Margitich, N.M. Govscheva, S.D. Melnichuk, T.M. Goridko, A.D. Zhukov (Ukraine) <i>Long-chain N-acylethanolamines inhibit lipid peroxidation in rat liver mitochondria under acute hypoxic hypoxia</i>	49
X. Zhang, X. Min, F. Yang (People's Republic of China) <i>Conformational basis of the phospholipid requirement for the activity of SR Ca^{2+}-ATPase</i>	55
G.E. Dobretsov, A.D. Dergunov, J. Taveirne, H. Caster, B. Vanloo, M. Rosseneu (Russia, Belgium) <i>Apolipoprotein localization in reconstituted HDL particles: fluorescence energy transfer study</i>	65
M.H. Gordon, A. Roedig-Penman (UK) <i>Antioxidant activity of quercetin and myricetin in liposomes</i>	79
 Original articles	
N.M. Carballeira, A. Sostre, J.A. Restituyo (Puerto Rico) <i>Synthesis of racemic 9-methyl-10-hexadecenoic acid</i>	87
Y. Asai, K. Iwamoto, S. Watanabe (Japan) <i>Characterization of the physicochemical properties of aggregates of the lipid A analog, E5531, prepared by a 'pH-jump method'</i>	93
G. Dobson, J.L. Sebedio (UK, France) <i>Monocyclic dienoic fatty acids formed from γ-linolenic acid in heated evening primrose oil</i>	105
M.V. Fraile, B. Patrón-Gallardo, G. López-Rodríguez, P. Carmona (Spain) <i>FT-IR study of multilamellar lipid dispersions containing cholesteryl linoleate and dipalmitoylphosphatidylcholine</i>	119
C. DeWolf, S. Leporatti, C. Kirsch, R. Klinger, G. Brezesinski (Germany) <i>Phase separation in phosphatidylinositol/phosphatidylcholine mixed monolayers</i>	129
R.A. Videira, M.C. Antunes-Madeira, V.M.C. Madeira (Portugal) <i>Biophysical perturbations induced by ethylazinphos in lipid membranes</i>	139
A.L. Davis, G.P. McNeill, D.C. Caswell (UK) <i>Analysis of conjugated linoleic acid isomers by ^{13}C NMR spectroscopy</i>	155
J. Barauskas, V. Razumas, T. Nylander (Lithuania, Sweden) <i>Solubilization of ubiquinone-10 in the lamellar and bicontinuous cubic phases of aqueous monoolein</i>	167
J.A.C. Flipsen, M.A. van Schaick, R. Dijkman, H.T.W.M. van der Hiden, H.M. Verheij, M.R. Egmond (The Netherlands) <i>Interfacial binding of cutinase rather than its catalytic activity determines the steady state interfacial tension during oil drop lipid hydrolysis</i>	181

Errata

A. Tuchinsky, U. Zehavi (Israel) <i>Chemoenzymic synthesis of potentially caged glycosphingolipids (GLSs): potentially caged lyso-G_{M3} and its analogue</i> [Chem. Phys. Lipids 92 (1998) 91-97]	193
H. John, W. Schlegel (Germany) <i>Thermodynamic and structural characterization of cis-trans isomerization of 12-(S)-hydroxy-(5Z,8E,10E)-heptadecatrienoic acid by high-performance liquid chromatography and gaschromatography-mass spectrometry (Short communication)</i> [Chem. Phys. Lipids 95 (1998) 181-188]	195
